

The future is cleaner with Hoval biomass boilers and ceramic filter package

Hoval CF Biomass Filter

- Removal of 96% of all PM₁₀ & PM_{2.5} from flue gases
- Suitable for pellet and wood chip boilers
- Can be retro-fitted to existing boilers
- Proven technology
- Simple design with small footprint

Perfectly matched to...

Forester UFS
Wood chip boiler
180kW - 2000kW

In line with the forthcoming UK Air Quality Standards Regulations 2010 the CF filter unit will help to reduce the average exposure indicator for PM_{2.5} particulate matter
