5 year warranty | Confidence built in

SAFETY AND ENERGY MONITORING

gas pressure proving, leak detection and atmospheric controls

We design and manufacture gas safety and atmospheric monitoring panels in our UK factory for **commercial buildings, schools and public buildings, laboratories and commercial kitchens.**

We are innovators in responding to new government safety standards and legislation. All software, board design, building and testing is carried out in house. Our products are energy-saving, cost-effective and easy to install and use. We offer a 5-year product warranty and a 10-year warranty on commissioned systems.
