

Buderus High Efficiency
Commercial Heating

Top marks for fuel efficiency. High performance heating from 43kW - 19MW

Buderus provide commercial heating expertise from planning to final commissioning, with all the quality and reliability you'd expect from a Bosch Thermotechnology brand.

With over 3 million high efficiency heating systems installed throughout Europe, a comprehensive product range and over 275 years in the heating industry we are widely recognised as Europe's largest condensing boiler manufacturer.

So if you're looking to upgrade your heating system, lower your fuel consumption and reduce your carbon footprint then call us on **0844 892 3004** for a free quotation, or visit www.buderus.co.uk/techteam to request a site visit.
