

Feature List 2010

Policy

WITH MORE than 47 years' experience, monthly magazine **HVR** is dedicated to the promotion of the activities of the commercial and industrial heating, ventilating and air conditioning industries.

Each issue of **HVR** contains thought-provoking features and comment on the subjects which matter to its readers – what is happening in the commercial and industrial hvac market, how to get the best out of installations, latest news on products, contracts and legislation and what your peers and competitors are up to.

HVR delivers incisive comment, in-depth analysis and exclusive, stimulating editorial. It is essential reading for the busy hvac professional.
